

# OHIO VALLEY MUZZLE LOADING

## GUN CLUB

---

2-15-18

Hello Club Members;

This winter and flu season has been a rough one, hope everyone is doing well, this is just a quick message to remind everyone that as planned at the annual meeting last month, we are having a seminar next Saturday February 24<sup>th</sup> at the Centerburg Conservation Club house. Start time is 10:00, end to be determined!

We have two different subjects being show cased: George Kidner will be showing us bead work and Dave Nunes will be showing us how to scrimshaw. He suggests we bring an exacto knife with a #11 blade (I think that's the pointy one☺)  
Sis had said she may bring something for lunch, but I had an email from her yesterday saying she broke her leg! So send her get well wishes and bring your own lunch.

I did hear from Althea at Pheasants Forever and they will be looking for us to help them on Saturday April 14<sup>th</sup> with their Kids Day event. Plenty of time to talk about this later, but you can put it on your calendar.

The new club secretary has been doing a great job on the web site, if you get a chance to be on the internet, check it out.

Sincerely;  
Mark Hazel
